PROFILE

Mobile and full-stack developer with 6+ years building production apps end to end — from React Native clients on iOS and Android to REST APIs in Go and C# .NET Core on SQL Server. Experienced in enterprise ERP/HRM systems, location-based apps, payment and NFC/EDC hardware integrations, and data dashboards in Next.js.

EXPERIENCE

Software Engineer — 2020 – 2026

E-Business Plus Co., Ltd.

- Developed and maintained ERP and HRM systems, from database design to user-facing features.
- Built a cross-platform Time Attendance app (React Native, iOS & Android) with GPS location checks and map verification before clock-in/out.
- Delivered Employee Self-Service modules: leave and OT requests, shift changes, welfare checks, salary-adjustment history and work schedules.
- Built ERP data-management dashboards with Next.js.
- Designed and implemented RESTful APIs in Golang and C# .NET Core backed by SQL Server.

Mobile & Backend Developer (Part-time) — 2022 – Present

Freelance projects

- **PT-Max Gas — consumer app** (React Native iOS/Android, C# .NET Core): shopping cart, discount engine, referral program, payment-gateway integration and order location mapping.
- **Gas sales — merchant app** (React Native Android, .NET Core): integrated EDC terminals to read NFC member cards and national ID cards; cylinder status tracking, safety inspections and cylinder-loan contract generation.
- **Gas Cylinder Tracking System** (React Native, C# .NET Core): QR-code scanning at every checkpoint — before filling, truck loading and unloading, branch receiving and return to the filling plant — to prevent fraud across the cylinder lifecycle.
- **Water-level monitoring — Royal Irrigation Department** (React Native): interactive charts and tables for water-level analysis.

IT Support & Programmer (Internship) — 2017

Forth Corporation Public Company Limited

- Provided hardware and software support and troubleshooting.
- Developed Windows desktop applications in VB.NET.

SKILLS

Mobile & Frontend
React Native (CLI & Expo), React.js, Next.js, Tailwind CSS

Backend
Golang, C# .NET Core, RESTful APIs

Databases
SQL Server, PostgreSQL, MongoDB, MariaDB, SQLite

Integrations
GPS & maps, payment gateways, NFC / EDC terminals

Tools
Docker, Git, Figma, Claude Code, GitHub Copilot, Cursor, Gemini API

EDUCATION

Computer Engineering
Rajamangala University of Technology Rattanakosin (Salaya)
2015 – 2019

Electronics Technology
Prachuap Khiri Khan Technical College
2012 – 2014
